KEY BENEFITS

Ergonomic Design

Configurable Drawer Systems

Removable and Interchangeable Drawer Inserts

Full Extension and Soft Closing Slides

Expandable Work Surfaces

Antimicrobial Infused Protection

Fanless Charging

Multiple Security Options

Convenient and Clean by Design

Improve staff comfort and efficiency while raising patient experiences and outcomes. proCARE® offers standard features on all carts designed to give you precisely what you need, how you would expect it when it's needed most.

Ergonomic Design

proCARE® cart series feature a durable, hybrid construction, using the most appropriate and efficient engineering materials for each aspect of the cart system, resulting in a robust, lightweight, contemporary design delivering the superior ergonomic performance.

Why it Matters

- Results in very durable, yet lighter weight cart.
- Requires less push force than heavier all-metal carts.
- Easy to maneuver with four 125mm (5in) swivel casters (two brake locking, two steering/directional) with low rolling resistance on all surfaces and pistol grip handles.
- Thoughtfully designed and engineered with an emphasis on quality to meet your stringent requirements and clinical needs.
- Ease of use is enhanced by keyboard tray and dynamic monitor mount.

Configurable Drawer Systems

The proCARE® modular drawer system can be configured to meet your application and workflow needs today and can be re-configured to meet your changing needs in the future.

Why it Matters

- Drawer configurations can be customized for you, the way you want it when you need it.
- Drawer sizes most frequently accessed can be moved to the best ergonomic location for access, reduces strain on caregivers.
- Things change – and proCARE® accommodates your changing needs.
- When you invest in proCARE®, you eliminate the uncertainty of changing workflows and supplies.

Removable Interchangeable Drawer Inserts

All proCARE® drawers feature smooth, dividable removable drawer inserts.

Why it Matters

- Facilitates rapid and easy replenishment of supplies when using PAR level stocking, so your cart is always ready.
- Removable antimicrobial drawer inserts are easily cleaned.
- Drawer inserts can be placed on the cart's work surface for organization at the optimum ergonomic height.
- Carts do not need to be returned to the pharmacy to be restocked.

Full Extension and Soft Closing Slides

All proCARE® drawers offer full extension travel supported by smooth-rolling, high-quality ball bearing drawer slides.

Why it Matters

- 100% visual and physical access to your drawer contents.
- Wonderfully convenient with minimal fuss.
- Allows for maximum capacity while delivering maximum access.
- Supports the heavier loads your application requires without sacrificing smooth, soft-touch performance.

Expandable Work Surfaces

Left and right pull-out expansive work surfaces increase your proCARE® cart's available work surface area when needed by 60%.

Why it Matters

- Maximum workspace, with a minimal cart footprint.
- Allows space for your task and supply organization.
- Supports comfortable access by multiple users.
- The extra space you need, when you need it.

Antimicrobial Infused Protection

proCARE® carts are constructed of antimicrobial materials, and all high touch surfaces are infused, rather than topically applied, with antimicrobial properties to ensure long-term protection.

Why it Matters

- Cleaner by design: retards growth of bacteria on cart surfaces.
- Decreases chances of patient contracted hospital-acquired infections.
- Peace of mind for caregivers.
- Better patient outcomes and higher satisfaction.

Fanless Charging

proCARE® powered carts feature a quiet, fanless charging option to reduce noise and prevent the circulation of harmful contaminants.

Why it Matters

- Sterile environments are not compromised.
- Improves levels of infection control.
- Patients rest easier in a quieter setting.
- Positively contributes to better patient outcomes and satisfaction.

Multiple Security Options

proCARE® offers a wide range of security options supporting a full range of applications, including yours.

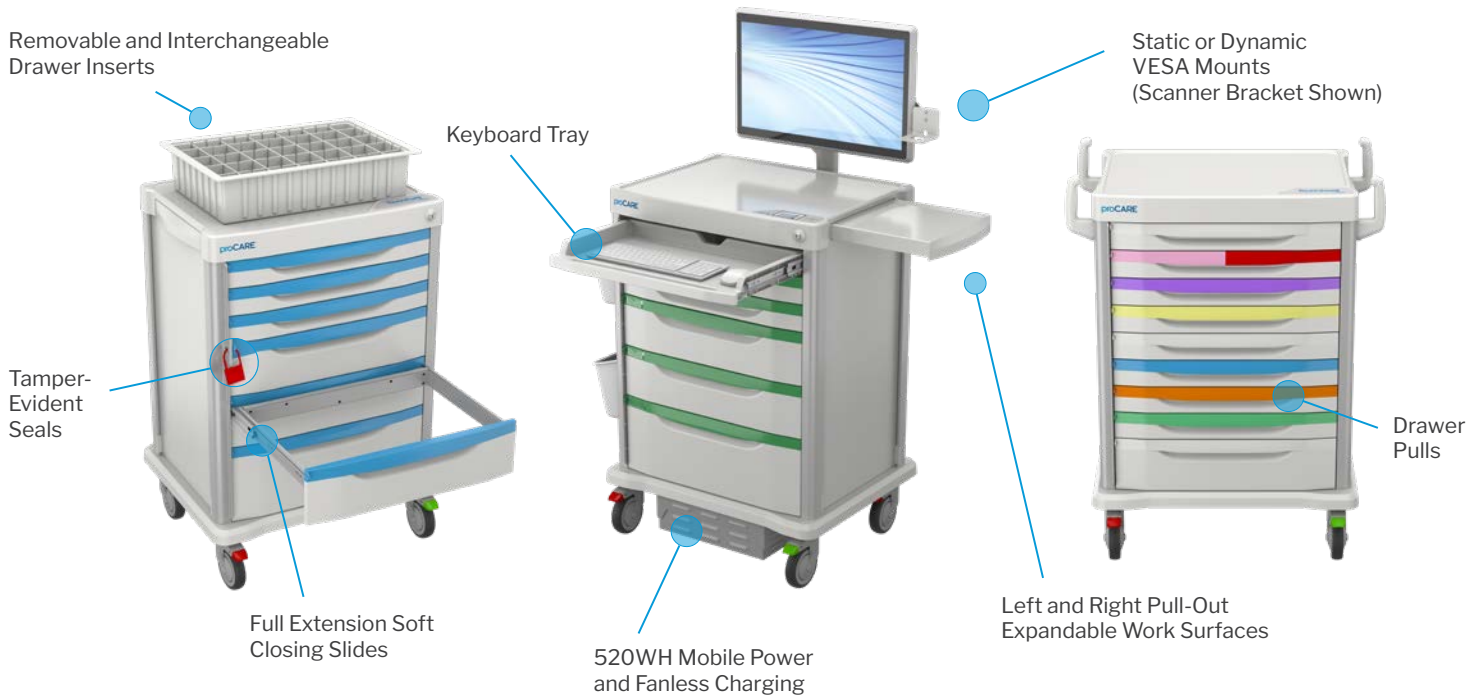

Why it Matters

- All carts and all drawers accept tamper-evident security seals, so when it counts, you know if the contents of a drawer are fully stocked, ready to go, and have not been compromised.
- With proCARE®, you can select what level of security you need, who needs to access, and who does not.
- RFID tap-n-go access security access makes the access to the proCARE® cart both secure and easy without wasting precious time or steps.
- Individual drawer locking with user-specific controlled access keeps controlled substances secure while ensuring productivity.

More than a storage solution, proCARE® procedure carts are your professional care assistant.

Optimize your workflow, reduce fatigue on staff and improve patient experiences and outcomes with medical procedure carts that give you precisely what you need, how you expect it when it's needed most.

Quick and easy access to the right equipment and medications during a critical emergency procedure.

Emergency Code Response Cart

Uncompromised Maneuverability

- Ergonomic steering handles ensure that there are no wasted steps when time is critical.
- Robust, lightweight, contemporary design holds up to the rigors of a code response.
- Easy to maneuver with less push force required than heavier all-metal carts. Four 125mm (5in) swivel casters (two brake locking and two steering/directional) with low rolling resistance on all surfaces and pistol grip handles.

Always Stocked, Always Ready to Respond

- All drawers are designed to accept tamper-evident seals providing quick visual assurance that the cart is stocked and ready.
- Removable antimicrobial polymer drawer inserts support ease of cleaning.
- Drawers can be stocked on an individual par level, so there is no need to return the entire cart to the Pharmacy to be restocked.

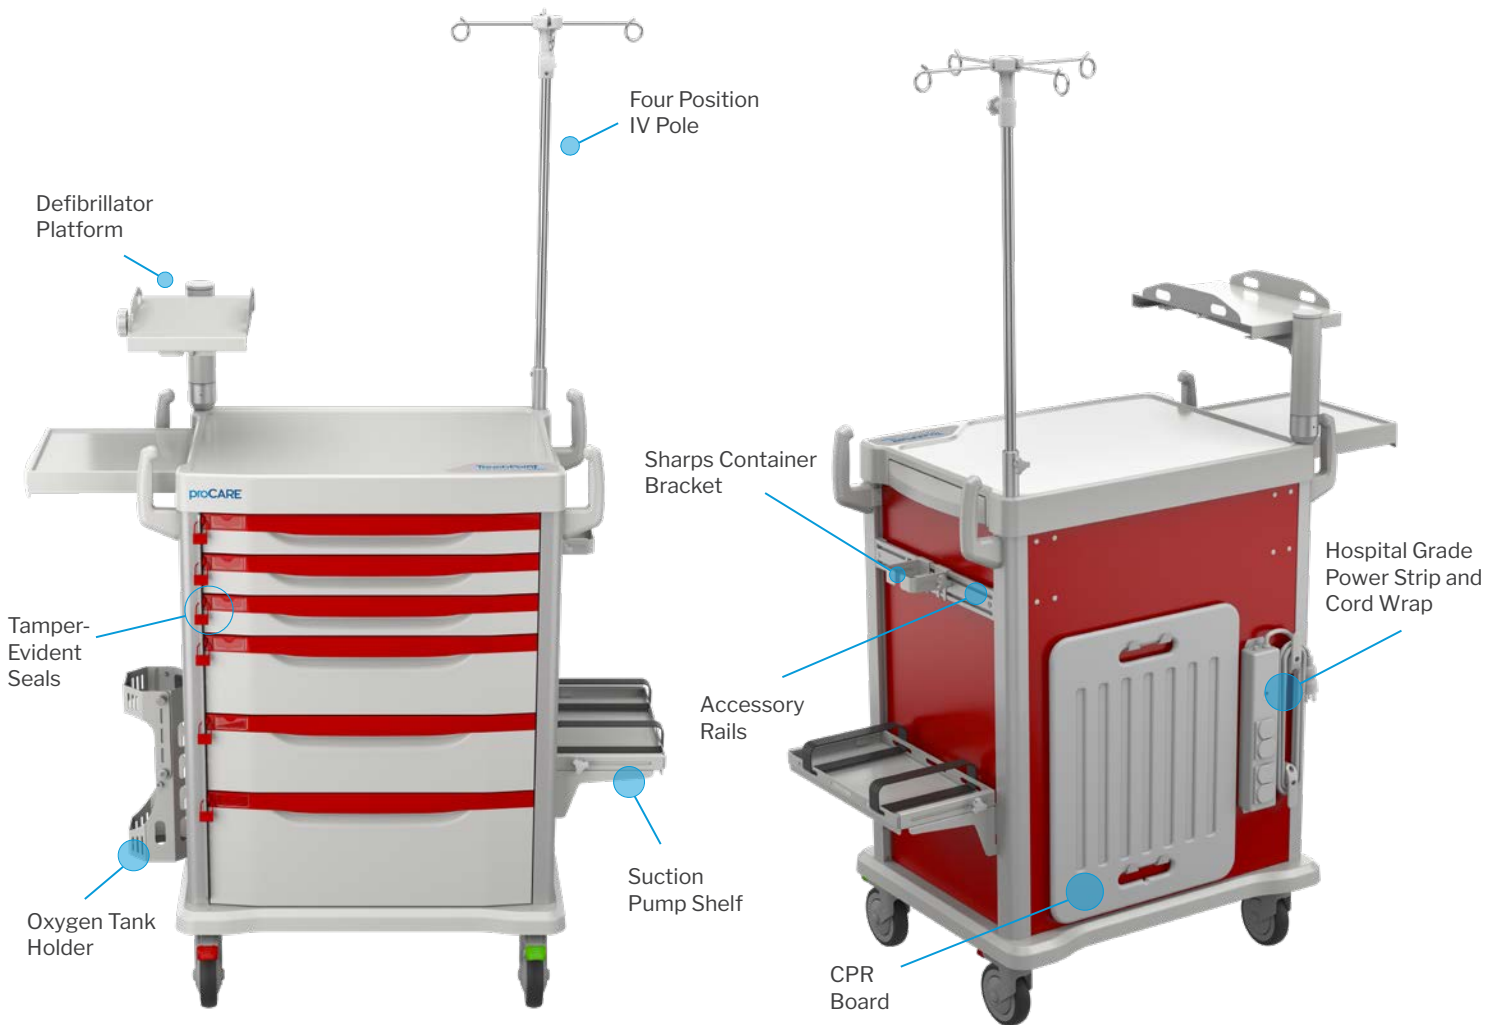

Expansive Work Area with Slide-Out Writing Surfaces

- Left and right pull-out writing surfaces increase your proCARE® cart's available work surface area when needed by 60%.
- Supports comfortable access by multiple users, provides the extra space you need when you need it.
- Maximum workspace, with a minimal cart footprint.

DRAWER CONFIGURATION

Size	Maximum Load Capacity	Quantity
76mm (3in)	9.07kgs (20lbs)	3
152mm (6in)	11.34kgs (25lbs)	2
228mm (9in)	13.61kgs (30lbs)	1

Emergency Code Response Cart Accessories

Defibrillator Platform

Corner mounted, adjustable defibrillator platform accommodates a wide range of equipment.

Four Position IV Pole

Corner mounted, 4-hook chrome IV pole with easy height adjustment feature.

Oxygen Tank Holder

Provides safe and secure storage for both C & D/M-9 & M-15 sized Oxygen cylinders.

Accessory Rails

Accessory rails provide an easy add-on framework for a multitude of accessories.

CPR Board

Hospital grade CPR board provides a smooth, hard, level surface for chest compressions.

Suction Pump Shelf

Sturdy platform with adjustable hold-down accommodates a wide range of equipment.

Sharps Container Bracket

Adjustable sharps container bracket accommodates a wide ranges of shapes and sizes.

Hospital Grade Power Strip

Hospital Grade power strip with four outlets for safe patient care vicinity.

Cord Wrap

Smooth molded cord wrap safely and neatly manages excess power cords and cables.

Quick and easy access with visual identification to properly supply medications for children.

Pediatric Code Response Cart

Uncompromised Maneuverability

- Ergonomic steering handles ensure that there are no wasted steps when time is critical.
- Robust, lightweight, contemporary design holds up to the rigors of a code response.
- Easy to maneuver with less push force required than heavier all-metal carts. Four 125mm (5in) swivel casters (two brake locking and two steering/directional) with low rolling resistance on all surfaces and pistol grip handles.

Always Stocked, Always Ready to Respond

- All drawers are designed to accept tamper-evident seals providing quick visual assurance that the cart is stocked and ready.
- Removable antimicrobial polymer drawer inserts support ease of cleaning.
- Drawers can be stocked on an individual par level, so there is no need to return the entire cart to the Pharmacy to be restocked.

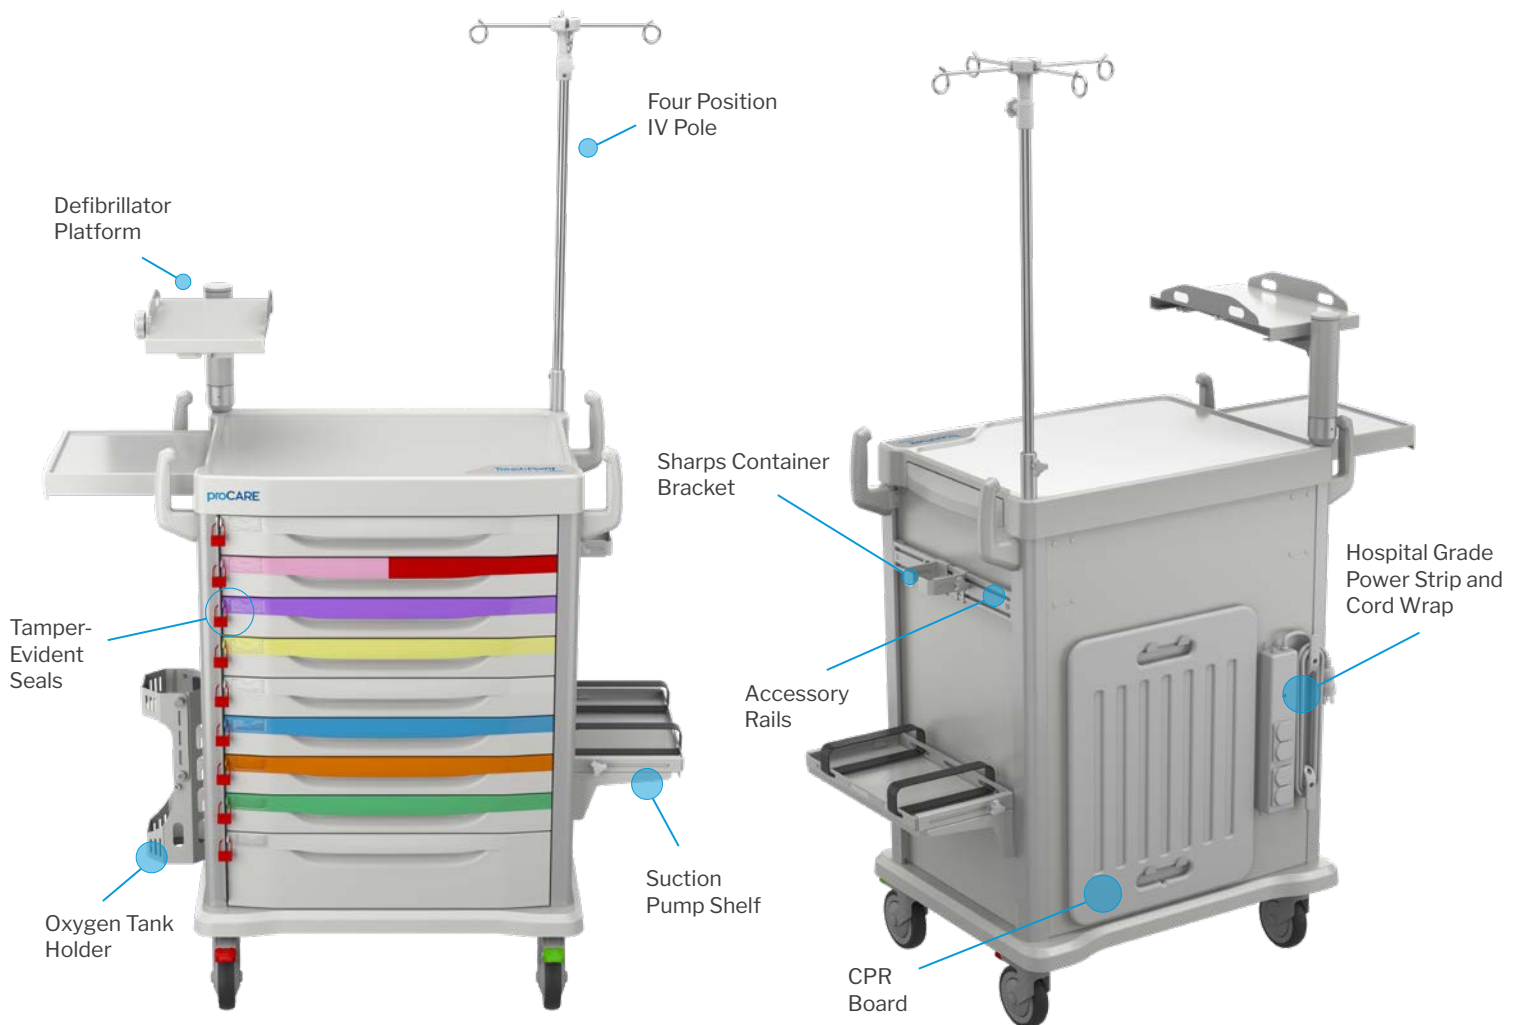

Expansive Work Area with Slide-Out Writing Surfaces

- Left and right pull-out writing surfaces increase your proCARE® cart's available work surface area when needed by 60%.
- Supports comfortable access by multiple users, provides the extra space you need when you need it.
- Maximum workspace, with a minimal cart footprint.

DRAWER CONFIGURATION

**CART
SPECIFICATIONS**

Dimensions	730mm (28.75in) wide x 557mm (22.0in) deep x 1031mm (41.0in) high
Durable Construction	The strong skeleton is comprised of rigid, lightweight aluminum space frame construction covered with smooth powder coated, lightweight skins.
Hybrid Design	The most appropriate and efficient engineering materials for each aspect of the cart system are used, resulting in a robust, lightweight, contemporary design.
Work Surfaces	The work surface, drawer fronts, drawer inserts, handles, pull-out work surfaces, and the bottom shroud/bumper are constructed of smooth, warm to the touch, injection molded polymer with antimicrobial properties.
Casters	Four 125mm (5in) swivel casters (two brake locking and two steering/directional) with low rolling resistance on all surfaces.
Power Supply	UL certified 520WH, switchable (115VAC or 230VAC) with advanced power and battery chemistry and management software. Designed for easy access for integration.
Computer Mounting Options	Dynamic arm and fixed/static.

Everything in its Right Place

Organize and store medication and supplies efficiently and securely, so you can focus on what matters most: patients experiences and outcomes.

Slides

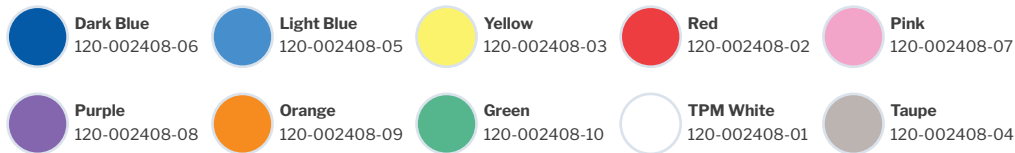

- Quality, full extension ball bearing construction with soft closing feature, except those with single locking security slides.

Dividers

- A full range of divider kits are available to organize, and reorganize each insert as supplies change.

Drawer Pulls

- Easy snap-on design to allow quick color changes as needed.
- Available in 10 colors. See list below.

Removable Drawer Inserts

- Smooth, molded polymer and non-tearing construction.
- All drawers features and removable inserts are based on the global 400mm x 600mm ISO standard.
- Inserts can be quickly exchanged, or removed from the frame and placed on the work surface for a more ergonomic experience.
- When supply picking, stocking, or organization tasks are completed, the insert is simply returned to the drawer frame.

Reduce time spent on securing and managing inventory, and increase time spent on patient care.

EFFICIENCY

- Centralized inventory and formulary management.
- Track inventory using wireless barcoding technology.
- Simple reporting and system interface for recording consumption and restocking.
- Seamless shifts between online and offline (off network) mode automatically synchronizes cached data.

SAFETY

- User authentication integrated with active directory and/or badging system.
- Single drawer access controls.
- Centralized user management and audit reporting.
- Access levels mapped to configurable user profiles.

FLEXIBILITY

- Embedded integration broker supports custom interfaces to HIS, eMAR and inventory systems.
- Drawers can be assigned to patients, medications, or for general inventory use.
- Support for remote software and firmware updating.
- User authentication configurable for any combination of ID, password and/or badge.

Software available on proCARE® Intelligent Procedure and Intelligent Anesthesia Carts.

TouchPoint Medical ESPSM for proCARE[®]

Protect your investment with our Enhanced Service Program. From integration to deployment and all throughout the lifecycle of our products TouchPoint Medical is with you every step of the way.

TouchPoint Medical ESPSM Overview

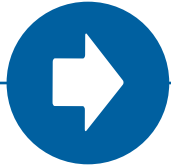

TouchPoint Medical ESPSM is a comprehensive program consisting of Deployment Services, Preventive Maintenance and Extended Warranties designed to:

- Minimize downtime
- Reduce maintenance
- Free up valuable support and personnel costs

Time is Money

Healthcare providers often underestimate the time and resources required to deploy new products and software into existing workflows. TouchPoint Medical has created a seamless process designed to ensure a successful rollout.

ADVANCE

Deployment Services

- On-site installation
 - Unpack, integrate and attach accessories
 - Connect power supply
 - Set up wake-on power (if applicable)
 - Install software
 - Integrate computer, monitor(s), keyboard, mouse, and additional peripherals
 - Perform quality inspection and functionality audit
 - Staging of rollout
- On-site training
- Per cart pricing, 10 cart minimum

MAINTAIN

Preventative Maintenance

- Reduce unplanned downtime by preventing problems before they occur.
- TouchPoint Medical will help you design and implement a program that can lower your overall support costs and maximize the life of your investment.
- You choose the number of Preventative Maintenance visits per year.
- Our trained technicians will arrive on site and conduct a comprehensive multi-point inspection which covers the cart, power supply and battery (if applicable).

ASSURANCE

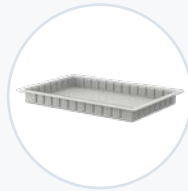

Extended Warranties

- Procedure carts play a vital role in clinician workflows. Safeguard them against downtime with hassle-free replacements and rapid response from TouchPoint Medical.
- Choose from:
 - Parts Only coverage
 - On-Site Service (Parts & Labor)
- Available in 3 and 5 year terms
- New or existing carts (up to one year from the date of purchase)
- Additional discount available if purchased at the same time of the cart purchase

proCARE® accessories allow you to configure procedure carts to store, hold, and secure the supplies and equipment you rely on every day.

Drawer Accessories

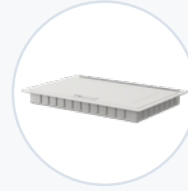

Configure your procedure cart drawers to match your workflow maximizing efficiency and security.

Drawer Insert

Smooth, dividable polymer drawer inserts support exchange and par level stocking.

Drawer Label Holder Kit
120-002448-00

Drawer label holders provide quick and easy identification of drawer contents.

VESA Mounted Accessories

Extend the capability of your procedure cart with technology peripherals to support your workflow.

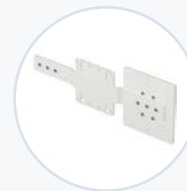

Scanner Bracket, Code 2700, Presentation Mode, VESA Mount
AP-ASMVESA

Universal VESA mounted barcode scanner holder bracket for tethered scanners.

Cup Holder, VESA Mount
AP-MEDCUPKIT

VESA mounted cup dispenser with easy loading cap for wide graduated med cups.

e-Signature Pad, VESA Mount
AP-ASMVESA

VESA mounted, rear facing magnetic bracket for electronic signature devices.

Side Mounted Accessories

Keep equipment and supplies within easy reach, but out of the way to optimize your workflow.

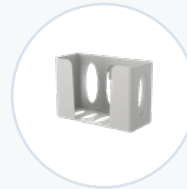

Accessory Rails
120-002432-00

Accessory rails provide an easy add-on framework for a multitude of accessories.

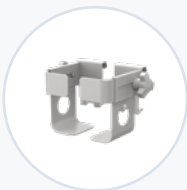

Polymer Side Bin
120-002433-00

Multipurpose storage bin for easy access and organization of frequently accessed items.

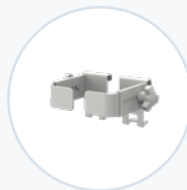

Glove Box Holder
120-002434-00

Neat, easy, and organized quick access to your disposable protective gloves.

Sani Wipe Bracket
120-002435-00

Adjustable holder provides convenient access to hand sanitizer and sani-cloth dispensers.

Sharps Container Bracket
120-002436-00

Adjustable Sharps Container bracket accommodates a wide range of shapes and sizes.

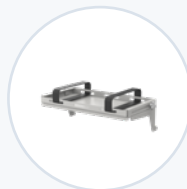

Waste Basket
120-002437-00

Waste basket with lid provides convenient and concealed disposal of unwanted items.

Oxygen Tank Holder
120-002438-00

Provides safe and secure storage for both C & D/M-9 & M-15 sized Oxygen cylinders.

Suction Pump Shelf
120-002439-00

Sturdy platform with adjustable hold-down accommodates a wide range of equipment.

Ergonomic Steering Handles
120-002431-00

Ergonomically correct steering handles for optimum cart maneuverability.

Technology Accessories

Choose the right technology equipment to complete and compliment your workflow.

All-in-One Computer, 24in
7-001108-00

24" Fanless Medical Grade All-in-One computer with antimicrobial germ protection.

Backlit Keyboard
AP-AKBACKLIT (KEYBOARD)
AP-AKBACKLITCOV (COVER)

Compact keyboard with easy to read blue LED keys with on/off switch for back lighting.
